

Wine List Introduction

Welcome to our wine list, we have strived to create a well-balanced selection for you to choose from. Our wines are listed in categories of style which will hopefully lead to a degree of experimentation and add value to your dining experience. That said, wine is of course subjective, and there are seldom absolutes when categorising wine style, please be aware wines may straddle more than one style category.

Locally Produced Wines – we are delighted to list wines from producers and vineyards local to us.

Furleigh Estate is located just outside Bridport in Dorset, and they only produce from their own vines. Their Sparkling wines are very special and have won many international gold medals and trophies.

Lyme Bay Winery is a dedicated West Country company passionate about producing delicious, award-winning English Wines.

Bride Valley, Steven and Bella Spurrier made Litton Cheney their home in 1987 after time spent living in France, London and New York, and from early on Steven, a globally celebrated wine aficionado, was keenly aware of the potential for growing vines on his wife's 200-acre farm on the edge of the village.

Organic and Biodynamic Wines – today, many wine producers engage in environmentally friendly and sustainable farming practices order to reduce their environmental footprint, however not all go to the expense of obtaining full Organic Status. To help you understand a little better we have explained some of the terminology:

Organic - The term organic wine does not have a legal or technical basis, what we refer to as organic wines are wines produced by organic viticulture. All organic agriculture involves strict control over any treatments used in the vineyards, avoiding synthetic treatments, chemical pesticides, herbicides, and fertilisers. A certificate of organic status must be obtained.

Biodynamic - For a vineyard to be considered biodynamic, the vine-grower must follow the organic criteria plus some or all the philosophies first voiced in 1924 by Rudolf Steiner. Steiner was an Austrian cultural philosopher, social reformer, and spiritual scientist; these comprise of a set of concepts which embrace cosmic rhythms, philosophy, spirituality, and metaphysics as much as agricultural disciplines, the theory is complex but the key being healthy soil means healthy vines giving rise to greater purity and precision in the resulting wines.

Organically Farmed – Growers who follow organic farming practices but have not obtained full organic certification.

Listed wines have alcohol content between 12.5% and 13.5% abv unless indicated ↯= below ↷ above.
